# **NO ON PROP 22!** **JUST THE FACTS**

**DON'T LET BIG CORPORATIONS  
CHEAT WORKERS — STOP GIG GREED**

## **WHO OPPOSES PROP 22?**

Vice President Joe Biden, Sen. Kamala Harris, Sen. Bernie Sanders, Sen. Elizabeth Warren, The California Democratic Party, New York Times Editorial Board, Mi Familia Vota, Equal Rights Advocates and labor unions across the state all oppose Prop 22.

## **WHAT IS PROP 22?**

Prop 22 is a carve-out in law that allows Uber and app companies to deny their workers basic protections like paid sick leave, workers compensation or unemployment benefits. It gives these multi-billion dollar companies a free pass to write their own rules, avoid labor laws and shift the burden to taxpayers.

## **WHO'S BEHIND PROP 22?**

Multi-billion dollar gig companies Uber, Lyft, Instacart and DoorDash paid to put Proposition 22 on the ballot. They're spending nearly \$200 million to pass this harmful measure that would exempt them from providing basic worker protections all other businesses in California provide. Prop 22 also allows these companies to continue to cheat taxpayers by not contributing to programs we all need like Social Security and Medicare.

## **WHAT'S AT STAKE WITH PROP 22?**

The future of good union jobs in California. If these companies succeed in buying this election, their low-pay, no-protection business model will expand in virtually every industry, leading to unprecedented job loss and a race to the bottom.
